

ALTON REGENERATION UPDATE

POSTED: 29/09/2020

In the wake of Redrow Homes' recent departure as its development partner, Wandsworth Council has officially confirmed its ongoing commitment to ensuring the delivery of the regeneration of the Alton Estate.

At the Council's Housing and Regeneration Overview and Scrutiny Committee meeting on Thursday 17 September it was agreed that the Council would take over responsibility for the planning application and would look for a new partner to take the work forward. Following consultation with a number of local stakeholders and residents, the Council also agreed a new approach to resident engagement and that a full Engagement Strategy should be prepared by November this year.

The planning application for the Alton Estate masterplan is expected to go to planning committee in October.
