

THE ALTON ACTIVITY CENTRE

POSTED: 23/11/2018

The Alton regeneration will integrate “doorstep play” across the estate and there will be major improvements to the three core play and amenity spaces. This includes Alton Activity Centre which will be redesigned to provide recreational space for all ages and abilities.

The improvements to the Alton Activity Centre will open the area to provide space for older children to play whilst maintaining the amount of managed play space for younger children. A new multi-use games area (MUGA) will also be provided and will be accessible to all members of the public.

On Thursday 22th of November, the regeneration team and Redrow held a drop-in session at the Alton Activity Centre. If you were unable to attend this session, you can download the boards below
